REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The applicant's argument that a controlled deposition of a nanotube on a substrate is not the same as the deposition of a nanotube on a substrate by breakage is persuasive. Claims 23-24 are thus interpreted in view of the specification to be limited to a *controlled* deposition, the nanotube being deposited on the substrate in a predetermined location, and thus do not encompass the prior art step of shortening a nanotube tip by a method of breakage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
